Myth:

'I assume this is protected by the vendor'

On-premises

ORACLE NetApp CISCO

NUTANIX VMWare DELL

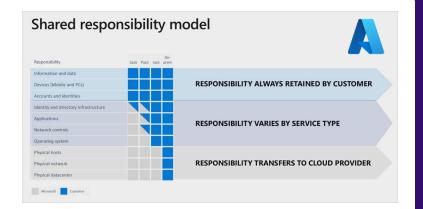

Fact:
I'm protecting our
applications on-premises

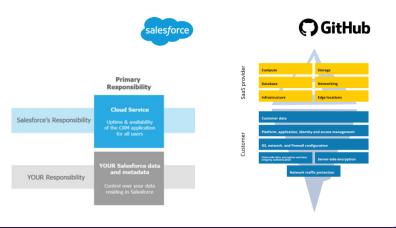

'Cover your aaS'

Your data. Your responsibility

Cloud Providers

SaaS Applications

No, it's not possible to recover a deleted organization or user. Zendesk is unable to recover the organization or user on your behalf in accordance with the <u>Data Recovery Policy</u>.

Aha!

Welcome to the community — thanks for posting!

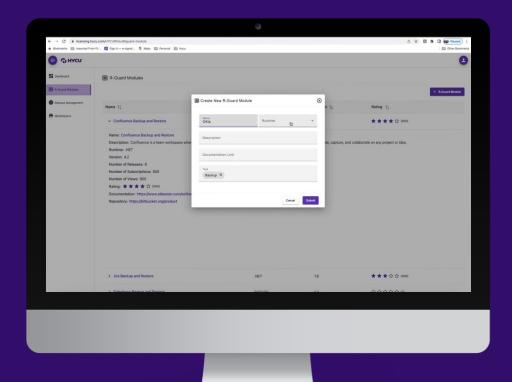

Unfortunately, it is not possible to automatically "undo" or restore a deleted feature.

webflow

Hi @satoriglass, sorry to hear about the forms trouble. If the form data was deleted, there is not a way for us to restore that data. Sorry about that. If you could please send me a read-only link to your site, I am happy to take a look to see what the situation is.

NEW R-Cloud Low-code development platform

SaaS companies can add backup & recovery in 4 days

- Native, purpose-built
- Granular backup & recovery
- Secured and certified by HYCU
- Delivered as a service

SaaS Vendors

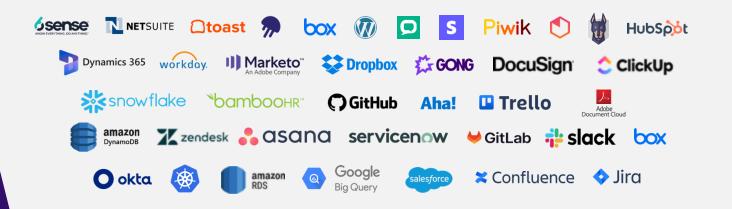

Bring application intelligence

Google Buckets

Google Cloud Storage

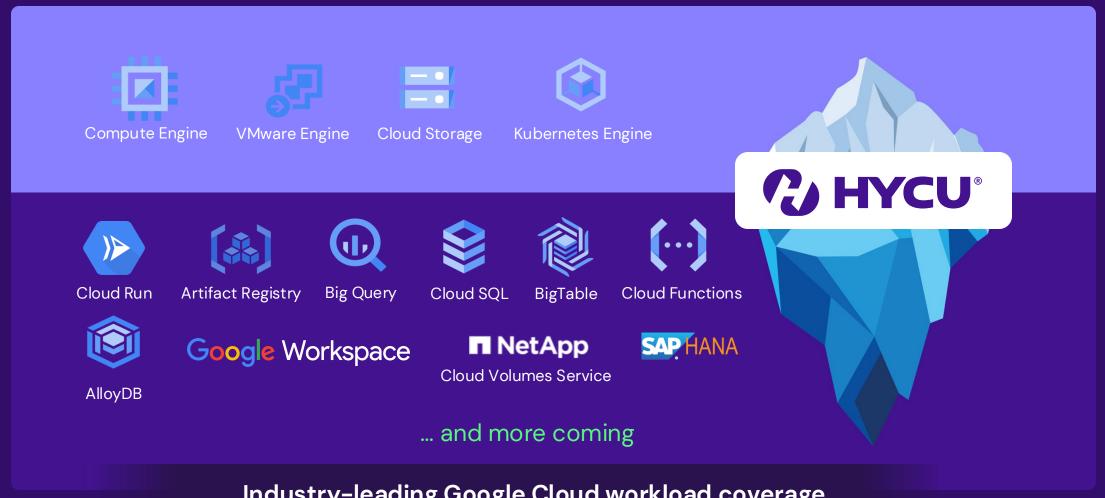

Auto-tiered backups

HYCU: Comprehensive data protection across your entire Google Cloud data estate

Industry-leading Google Cloud workload coverage

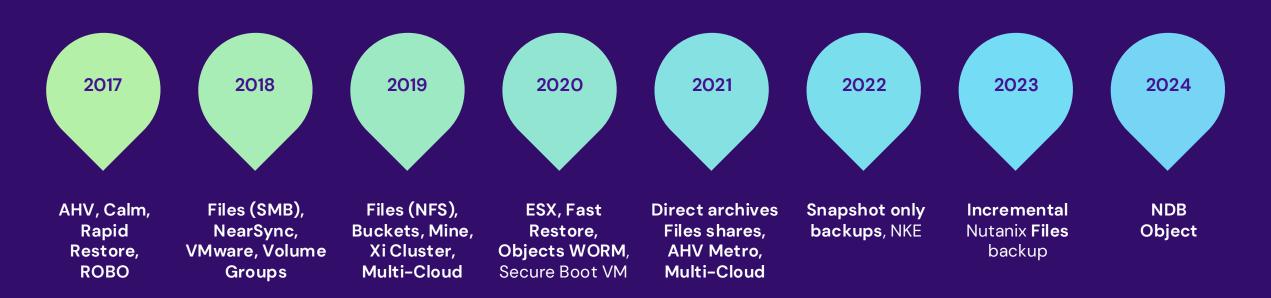

R-Cloud FOR Enterprise HYCU

HYCU & Nutanix: Complete alignment

Continuously delivering complete Nutanix coverage since day one! Supporting new releases out of the box!

Legacy backup infrastructure

Complex Deployment

Agents, data movers, proxies. Does not support all Nutanix features

Additional management

Means more complex procedures

Painful Upgrades

Lengthy maintenance

Runs on Windows

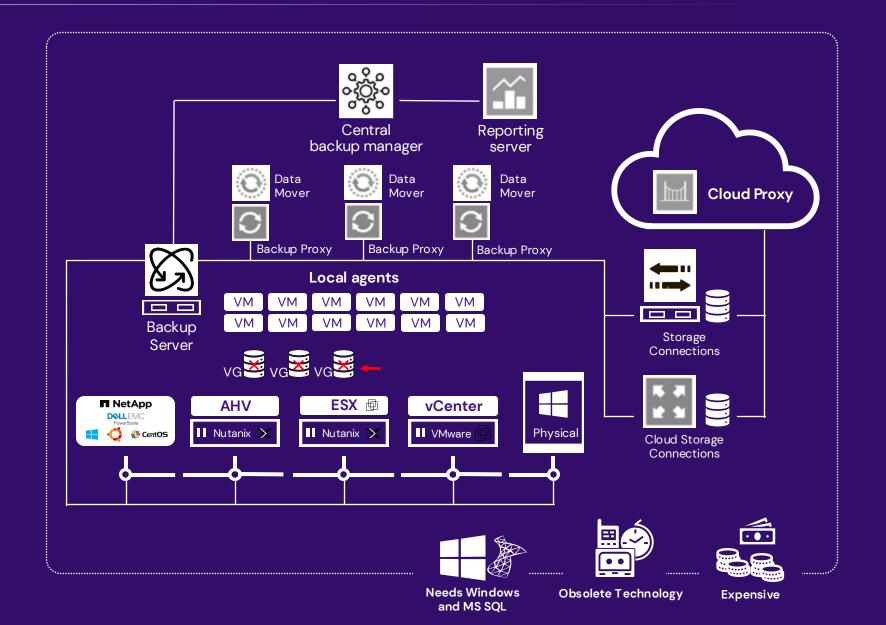

Insecure and expensive

Outdated Architecture

Minimum 15+ years old

Expensive Solution

Licensing for different components

HYCU – Modern data protection

Near-zero Maintenance

Extremely simple deployment and upgrades

Runs as a vApp

Secure and zero licensing costs

Designed for Scale

Simple, Scalable and Enterprise ready

All-in-One capability

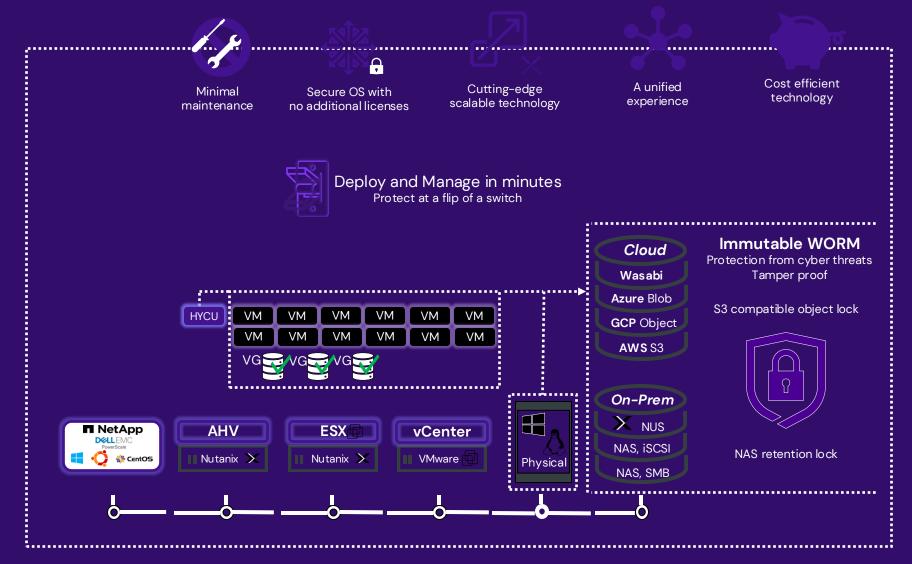

Built-in reporting, self service and more

Cost-efficient Solution

Simplified licensing model

Purpose-built

Protect all your AHV, ESX, Volume Groups, Nutanix Files and much more!

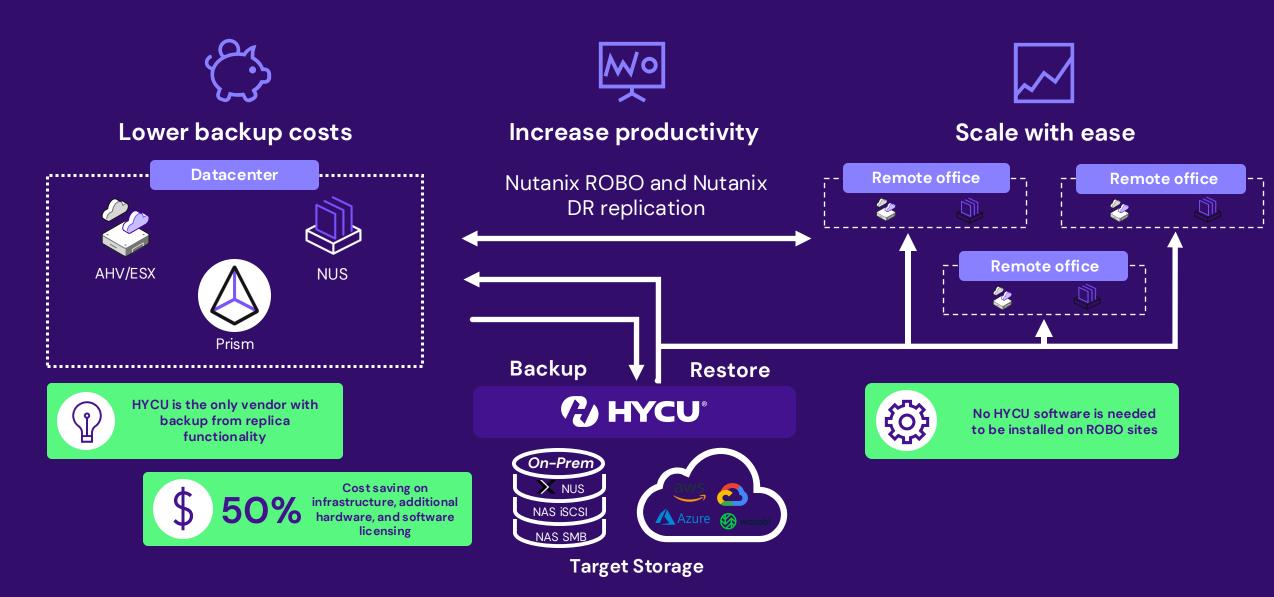

HYCU understands Nutanix is critical to the success of your business

ROBO and Edge Protection Fast and cost-efficient data protection with no WAN congestion

Nutanix Database (NDB) Protection Cost-efficient NDB protection with long-term retention and DR

Lower cluster costs

Increase cluster performance

Meet compliance needs

Expensive to store snapshots on cluster

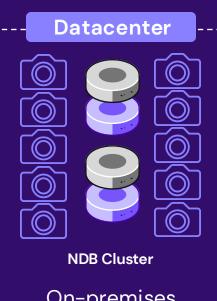

Performance impact from storing high amount of snapshots

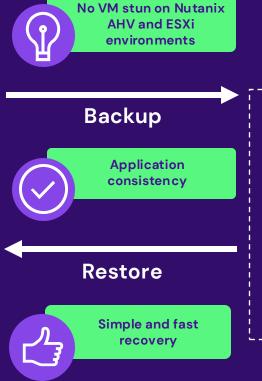

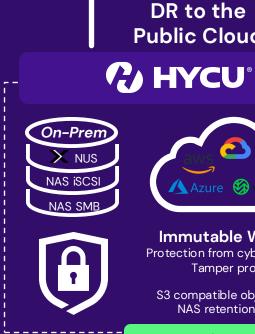

Risk of data loss. Snapshots are not backups

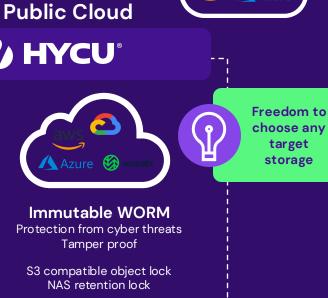

On-premises <u>production</u> cluster

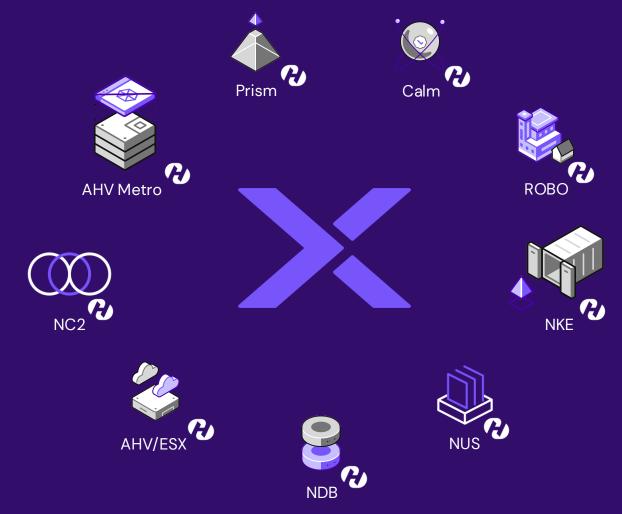

Long -term, customized retention off cluster

Why HYCU for Nutanix?

MERCI

Built differently to solve modern data protection challenges

Disaster Recovery

Ransomware Protection

Data Mobility

Security & Compliance

First and only data protection platform built to scale to protect the world's thousands of cloud applications
