

# SECURELINK AND CORESEC JOIN FORCES

The rise of the cybersecurity champion in Europe

**Coresec**, the **leader** in cybersecurity and Managed Security Services in the **Nordics**

**SecureLink**, the **leader** in cybersecurity and Managed Security Services in the **Benelux**

A new champion in Europe arises where the combination becomes the largest independent cybersecurity leader in Europe

We will **protect customers against cyber threats** out of **three** separate **Security Operating Centers (SOC)** and **four Network Operating Centers (NOC)**, delivering 24/7, 365 days, geographical spread.

We bring together one of the largest cybersecurity and critical infrastructure **knowledge centers** with more than **500 specialists** powering the combined entity with strong security and infrastructure expertise.

**Deliver broad portfolio of leading cybersecurity and infrastructure solutions** to its customers with one of the **highest customer satisfaction ratings** on the market.

We **protect customers manage cyber threats through education** being one of the largest independent training centers in the region.

**Revenue 200 Million euro** forecasted for the calendar year 2016.

**Establish Headquarters** out of **Slidrecht**, The Netherlands and **Malmö**, Sweden.

We **secure national and international customers** out of **5 countries** and **12 different locations**.

**Gateway**, a Coresec add-on in Norway will be responsible for the Norwegian market.

**WeSecure**, a Coresec add-on in the Netherlands will be fully integrated in the Dutch SecureLink organization.
